A NEW WAY TO IMPLEMENT YOUR BRAND

We are the new manufacturer of personalised shoes for the promotional gift market.

We produce high quality sneakers totally personalised with your customer's corporate logo, colours and materials.

We are a branding company and have a long experience in the footwear industry. We have a very strong design team able to create the perfect shoe for each project.

HOW WE DO IT

All shoes are designed in Barcelona and totally handmade.

We work together with the best craftsmen of the sector, recognised worldwide. We translate into a beautiful and trendy sneaker what you tell us to do!

Tailored to suit your customer's needs: high quality in manufacturing reflected in the finishes, details, and materials of our sneakers.

Our long tradition in the footwear sector provides experience in high quality leather treatments, a continued innovation in technologies, professional manufacturers, materials and designs.

The ISO 9001:2008 is a universal standard comprising requirements for a quality management system applicable to every organisation, regardless of its size or nature. Its main purpose is to enhance and continuously improve the standards for all processes in place at an organisation, which translates into product quality and satisfaction of customers' expectations. Our Factory holds the ISO 9001:2008 certificate from IQNet number 9190.CLZD

The ISO 14001:2004 standard is to help organizations to protect the environment and to respond to changing environmental conditions. According to ISO 14001, any organization can achieve these goals if it establishes an environmental management system (EMS) and if it continually tries to improve the suitability, adequacy, and effectiveness of this system. Our Factory holds the ISO 14001:2004 certificate from IQNet number 9190.CLZD

ID SNEAKERS is pleased to certify that none of the items manufactured by ID SNEAKERS contain any Substances of Very High Concern (SVHC) from the Candidate List Updated on June 20th 2016.

MATERIALS:

All our materials come from expert producers in the industry from the areas with the highest textile tradition in Spain in the footwear and leather goods, offering a wide variety of items and colours, always with competitive market prices.

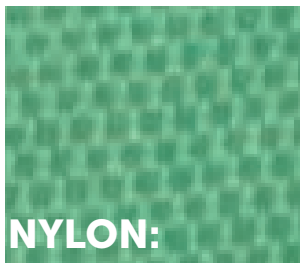

Our main materials are: Cotton, Nylon, Nappa and Suede leather.

Even available vegan sneakers that do not contain any product of animal origin.

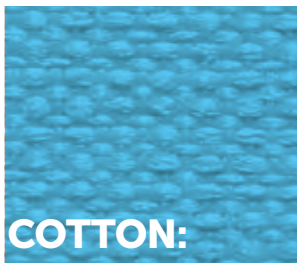

LEATHER & SUEDE LEATHER:

High quality Bovine and colours. Durable, comfortable and long lasting

NYLON:

Elastic and resistant fiber with a great variety of colours

COTTON:

Natural fiber. Cotton fabrics are comfortable, very soft, with good heat conduction and breathable

VEGAN:

All our models can be produced in vegan materials.

We offer soles that are made of thermoplastic rubber (TR). They're ultra-light and they've less density due to its cushion.

THEY ENSURE COMFORT!

They're also eco-friendly and 100% biodegradable. Biodegradable means that microorganisms can break down an organic substance and some synthesised composites. This contributes to environmental benefits, because there's a reduction of gas emissions that can cause the greenhouse effect and global warming.

CUSTOMISATION TECHNIQUES:

There are 4 main customisation techniques:

EMBROIDERY:

It's the perfect technique for logos formed by letters or more defined and simple designs, or with a limited number of lines. It can be used on all materials, especially on Nappa Leather. It's the technique used for heel customisation.

DIE-CUT LEATHER:

Suitable for sharp and simple logos. This technique provides an elegant and sophisticated result with the leather/ leather combination for all brands.

SUBLIMATION PRINT:

Is the best technique when a logo is complex, needs a high definition, many thin lines or gradient colours. Used on pictures, combination of shapes and colours. Only to be applied on nylon fabric.

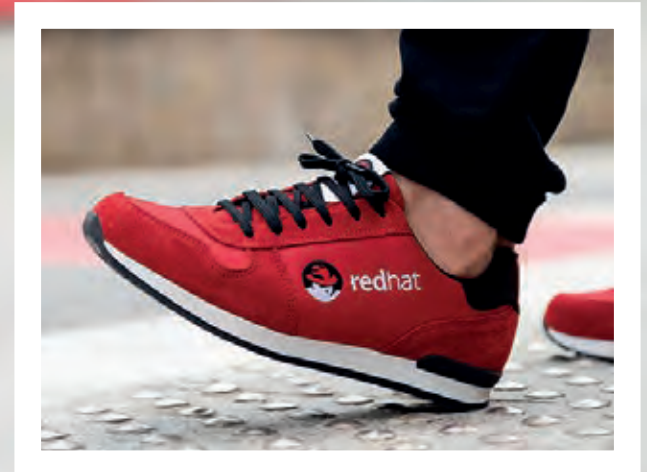

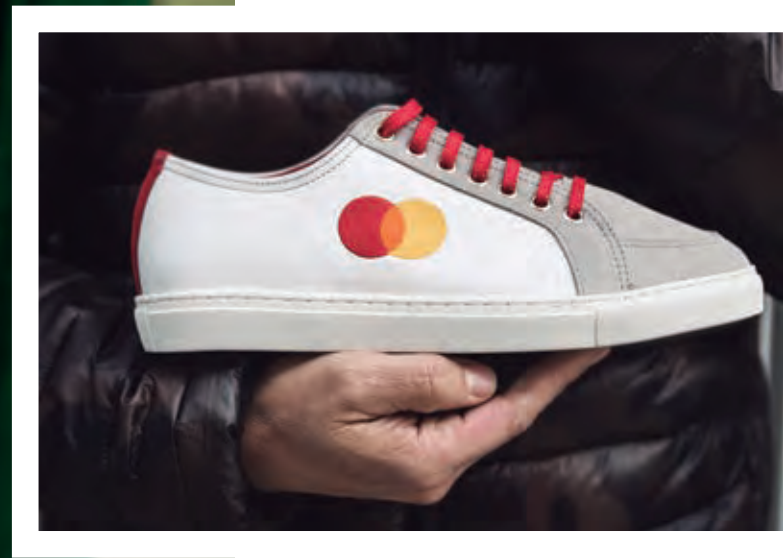

LASER MARKING:

It's an available solution for leather; the brand will result elegant and clean: good definition with simple logos. This has the additional cost of the stamp/ laser mold.

COLOUR CARDS

We try to reproduce as much as possible the exact colour tone of the original in our catalogue but sometimes it may be subject to main variations depending on laptops or screen resolutions.

LEATHER

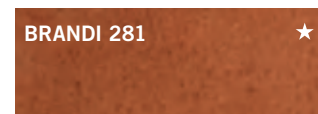

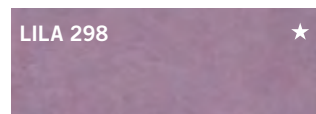

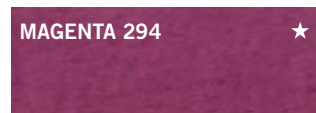

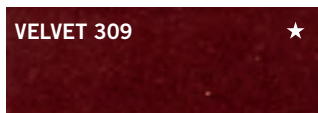

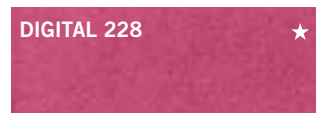

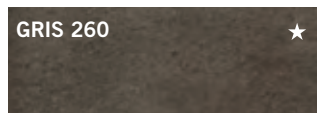

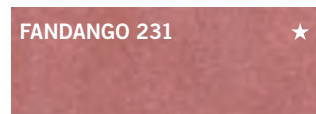

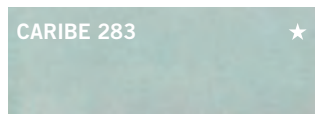

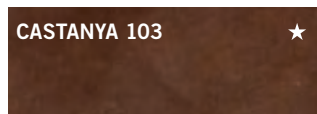

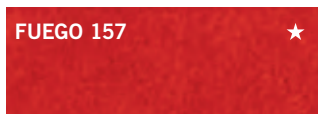

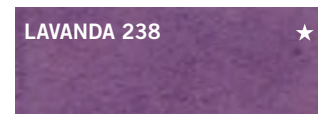

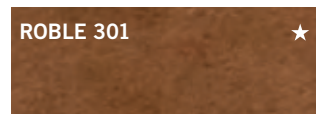

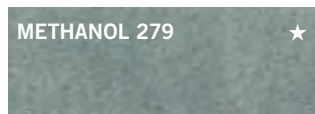

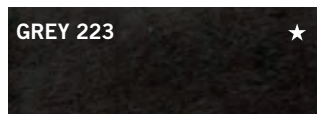

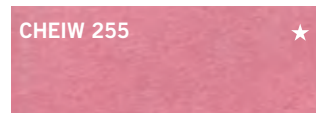

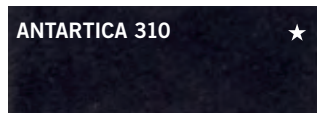

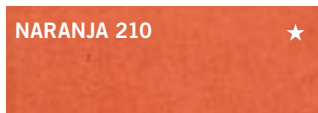

| | | | | | |
